This new modern residential complex is being built in Palmanova and is located a few steps from the seafront. The residence has a bright and beautiful design and offers several types of apartments with 2 and 3 bedrooms, and are sold together with a parking space and a storage room in the underground garage. The complex consists of 20 apartments and has a communal swimming pool and garden. The cost of apartments is from 355,000 Euros to 745,000 Euros, depending on the number of bedrooms and living space of the apartment. All apartments have a south-west orientation, which allows you to enjoy the sun all day long. All necessary infrastructure is within walking distance.
